## INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 C12N15/12 C12N15/62 A61K31/7115 A61K38/17

C07K14/47 A61K38/18 C07K14/475

C12Q1/68

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic Cata pa

pase consulted during the international search (name of data base and, where practical, search terms used)

3 0 2001 \$

DOCUMENTS CONSIDERED TO BE RELEVANT

Category °	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
x M	MOROZ C ET AL: "T-cell mitogenesis stimulates the synthesis of a mRNA species coding for a 43-kDa peptide reactive with CM-H-9, a monoclonal antibody specific for placental isoferritin." PROC. NATL. ACAD. SCI. USA, vol. 86, no. 9, May 1989 (1989-05), pages	1-7,16, 28,29
Y	3282-3285, XP002131123 abstract page 3285, left-hand column, line 8-47	8-12, 17-27
YV	US 4 882 270 A (MOROZ CHAYA) 21 November 1989 (1989-11-21)	8-11, 17-20, 22,23,27
i Ì	column 2, line 22 -column 3, line 22 claims 26-35	
	-/	

Y Further documents are listed in the continuation of box C.	Patent family members are listed in annex.
<ul> <li>Special categories of cited documents:</li> <li>"A" document defining the general state of the art which is not considered to be of particular relevance</li> <li>"E" earlier document but published on or after the international filling date</li> <li>"L" document which may throw doubts on priority claim(s) or</li> </ul>	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
which is cited to establish the publication date of another citation or other special reason (as specified)  "O" document referring to an oral disclosure, use, exhibition or other means  "P" document published prior to the international filing date but later than the priority date claimed	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.  "&" document member of the same patent family
